Seeking a dynamic rule as a web developer and graphic designer, where I can leverage my technical proficiency and creative skill to design visually appealing and user-centric websites, interfaces and graphics.

Education

Islamia College of Science and Commerce (ICSC)   **08/22 - present**
Bachelor's in Computer Application

- I studied Computer Science with a minor in Nanotechnology and also took multidisciplinary courses in Commerce and Finance.

National Institute Of Electronics & Information Technology (NIELIT)   **12/21 - 11/22**
1 Year Diploma (O-Level) - 91.5

- I completed my O-level education with excellence, gaining a solid foundation in various subjects and developing strong analytical and communication skills.

Projects

Free Course Website   **10/22 - 10/22**

- I and my college group developed a free course website covering music, graphic design, and English speaking, offering accessible learning opportunities.

Event Branding And Promotion   **05/23 - 05/23**

- As a graphic designer in college, I led event branding and promotion projects. I crafted captivating visuals that effectively communicated event themes, enhancing engagement and attendance.
